HEAD OFFICE FOR THE UNITED STATES, No. 37 South Third Street, Philadelphia. CAPITAL....\$6,298,800 00

Paid up Capital and Surplus 2,194,111 02 SECURITY TO POLICY HOLDERS. THIS old and responsible Company insures against loss or damage by Fire, almost every

description of property, and offers to Merchants and others desiring insurance, the security of an actual Capital of \$6,298,800, for the whole of which, and for any liabilities beyond, the Shareholders are INDIVIDUALLY RESPONSIBLE, even to the extent of their entire fortunes. The Shareholders number about one thousand, and as a large portion of these are persons of great wealth, the most ample provisions exist for meeting every possible claim against the Company. SUBJECT TO THE LAWS OF THE UNITED

STATES. In appointing an Agent for the United States, the Company has empowered him "to appear to and accept any action or legal proceedings instituted against or by said Company, in the same manner as if the Company were a Corporation or Company established by the laws of the United States, or any of the several States." PROVISION FOR PAYMENT OF LOSSES IN

THE UNITED STATES. A SPECIAL PERMANENT FUND HAS BEEN PLACED AT THE DISPOSAL OF THE AGENT AT PHILADELPHIA, TO ENABLE HIM TO ADJUST AND PROMPTLY PAY ALL LOSSES, WITHOUT REPERENCE TO LONDON.

LIBERAL TO THE INSURED. The uniform course of the Company has always peen a liberal one towards Policy Holders. No just claim has ever been disputed, and prompt payment of losses is a standing rule. During the past year, losses exceeding \$525,000 were paid Losses paid as soon as the amount is ascertained.

sep 28-d1y SOUTHERN PROTECTION INSURANCE COMPANY,

ALEXANDRIA, VIRGINIA. CAPITAL OVER 350,000 DOLLARS, AND CONSTANTLY INCREASING. The Charter of this Company offers more favorable advantages to the farmer and others, than any Company chartered in the State, by insuring with or without a premium note. If the applicant prefer, he can pay the full amount of the premium in eash, or by effecting a cash insurance for two years, the insured saves one-eighth of the amount he would otherwise have to pay; or by beco member, and giving a small premium note, the insured saves nearly one-half of the amount charged by Stock Companies, when insuring from year to year. This is the advantage resulting from the

combination of the CASH AND MUTUAL PRINCIPLE. This Company commenced issuing Policies against loss or damage by fire, on the 13th day of March, 1854, since which time over seven thousand seven hundred persons have insured and become members of the Company, and over seventy thousand dollars have been paid for losses. Having increased our business during the past year, we feel grateful for the liberal patronage bestowed upon the Company thus far, and for its flattering prospeets of future usefulness. The Directors hope and believe, that, by prudence, caution, and a rigid system of economy, they will establish for this Company a reputation for cheapness and safety not surpassed by any Company in the U. States.

MISCELLANEOUS READING.

ASHES AND ANTHRACITE COAL .- We are often asked if the ashes of anthracite coal have any value as a manure, and have as frequently answered that their greatest value consisted in their ability to prevent the adhesiveness of clay soils, for eighty-eight per cent, of these ashes is entirely insoluable in the strongest acids, and consequently not capable of furnishing food even to the lowest class of plants; the soluble silica is immaterial in amount, the alumina, which varies from three to four per cent., cannot be of any value; the iron, which varies from four to six per cent., is of no value, as most soils contain all that is required. The lime in the ashes of the white ash coal is about two per cent.; in that of the red ash, but sixteen hundredths of one per cent.; the magnesia is not called for, while the soda is but onefifth of one per cent., and the potash even of less quantity; indeed, we believe this to arise from the wood used in kindling the fires, rather than from the coal itself .-The greatest value of coal ashes is the phosphoric acid, being the fifth of one per cent, and of the suphuric acid which varies from a half to three fourths of one per cent.; beyond these the ashes have no value, and the phosphoric and sulphuric acids contained in a ton, is not worth ten cents. Therefore, coal ashes, except soils, cannot be worth the cartage. In addition to the small quantity of inorganic form, and, therefore, still smaller proportions than those noted can be appropriated by the higher class of plants .- Working Far-

The New York correspondent of the Boston Journal relates the following incident: Passing down 13th street theother morning, I saw a trade carried on by a lady that is worth noting. A dealer in horses rode through the street having a fine-looking pony tied behind. The pony attracted the attention of the lady. She came out to the curbstone and hailed the dealer. He came up to the sidewalk. What do you ask for the horse? Is he sound and kind? Is he a good saddle horse? Can I try him?' were questions put in the usual form. She called for her servant and a saddle, examined the horse as any horseman would have done, placed her cluded to take him, paid \$250 in cash, and sent the dealer on his way in less than fif-

The following story is told of Rev. Dr. Morse. At an association dinner, a debate arose as to the benefit of whipping in bringing up children. The doctor took the affirmative, and his chief opponent was a young minister, whose reputation for veracity was not very high. He affirmed that parents often did harm to children by unjust punishment, from not knowing the facts in the case .-"Why," said he the only time my father ever whipped me, was for telling the truth."-"Well," retorted the doctor, "it cured you of it, didn't it."
